Notes: the Hospital Charges and Payment information was provided by Trailblazer, the organization that administers the Section 1011 program for CMS. The above activity represents the most recent 12 months information.

The cost to charge ratio was derived from the uniform accounting reports submitted by hospitals to the Arizona Department of Health Services

The uncompensated costs is considered a partial accounting of undocumented aliens because hospitals only submit claims for the first two days of a patients stay or the period of stabilization, whichever is longer. This is consistent with the Section 1011 program purp
